UW MEDICINE PATHOLOGY CYTOGENETICS LABORATORY

Cytogenetics Tests Offered

SPECIALTY AREA	TEST NAME	CPT CODES	TURNAROUND TIMES
Prenatal Cytogenetics	Amniotic Fluid Chromosome Analysis	88235, 88267, 88291	7-10 days
	Chorionic Villi Chromosome Analysis	88235, 88267, 88280, 88285, 88291	7-10 days
	Prenatal Aneuploidy FISH Panel	88271x2	Preliminary 1-2 days
Neoplasia Cytogenetics	Bone Marrow Chromosome Analysis	88237, 88264, 88291	5-7 days
	Neoplasia Blood Chromosome Analysis	88237, 88264, 88291	5-7 days
	Solid Tumor Chromosome Analysis	88239, 88264, 88291	14 days
	Lymph Node Chromosome Analysis	88237, 88264, 88291	14 days
	Neoplasia FISH Study		1-3 days
	Additional FISH Study		1-3 days
	Paraffin Embedded Tissue FISH		3-5 days
	Urovysion FISH	88271x4, 88274, 88291	3-5 days
Blood Cytogenetics	Peripheral Blood Chromosome Analysis	88230, 88262, 88291	10 days
	Peripheral Blood FISH Study	88230, 88271, 88273, 88291	7-10 days
	Mosaicism Study	88230, 88262, 88291	14 days
	Family Chromosome Follow-up Study	88230, 88261, 88291	7-10 days
	Newborn Peripheral Blood Chromosome Study	88230, 88262, 88291	Preliminary 2-3 days Final 7-10 days
	Newborn STAT FISH to rule out Aneuploidy	88271, 88275	Preliminary 2-3 days Final 7-10 days
	Breakage Chromosome Study	88230, 88248, 88249, 88291	10-14 days
Tissue Cytogenetics	Products of Conception Chromosome Analysis	88233, 88262, 88291	14 days
	Tissue Chromosome Analysis	88233, 88262, 88291	14 days
Array CGH	Prenatal Array CGH		10-14 days
	Routine Array CGH		14-21 days

Please note the information provided is intended as a guideline. Contact the laboratory at 206-598-4488 for pricing information and precise CPT codes for tests ordered.

Turn-around-times are averaged; some cases may be delayed due to slower than usual cell growth, incomplete paperwork, or other circumstances beyond our control.
